

```
tqdm::tqdm_timer::set  
_ostream
```

```
graph LR; A[tqdm::tqdm_timer::set_ostream] --> B[tqdm::progress_bar::set_ostream];
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text `tqdm::tqdm_timer::set_ostream`. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `tqdm::progress_bar::set_ostream`. Both boxes have a thin black border.

```
tqdm::progress_bar  
::set_ostream
```
